innosabi empowering what's next

no limit
in community size and interaction

60 min
for high quality feedback

The screenshot displays the innosabi Community web application. At the top, the navigation bar includes the logo, a search bar, and links for 'Homepage', 'Projects', 'Articles', 'About us', and 'Events'. Below the navigation is a search bar with the placeholder text 'Search for topics, people or news'. The main content area is divided into several sections: a 'Hello Mona, let's innovate now.' banner with 'Your Comments: 1' and 'Your Suggestions: 0'; a 'Recently visited' section featuring 'Smart Insurance...' and 'Decentralized IoT' campaigns; a 'Future Banking Services' campaign; a 'Hi, how can I help you?' chat window with an 'Assess' button and an 'I have an idea' button; and a 'Latest community activity' section with the subtext 'Explore what's currently happening in your community'. This section contains three items: a 'New comment' about blockchain security, a 'New suggestion' for a 'Banking Booth', and another 'New suggestion' for 'Luggage and Check-in Terminals'. Each item includes a date and time stamp.

EXPERT & SUPPLIER COLLABORATION

innosabi Partner

Collaborate with external experts and suppliers

- | Start confidential challenges and specifically invite suppliers with the matching skills.
- | Use the knowledge and technologies in your network to reduce your own development time and costs.
- | Establish a permanent, outside-in channel for submitting ideas and innovations by experts or potential partners.
- | Target specific partners based on their profiles or screen them with detailed surveys.

innosabi empowering what's next

6 months

faster time to market

100.000+

companies and startups in database

The screenshot displays the innosabi Partner web application. At the top, the logo 'innosabi partner' is on the left, and navigation links for 'Homepage', 'Challenges', 'About us', and 'Tasks' are on the right. A user profile 'Hello, Mona Sardari' is also visible. The main content area is divided into two sections: 'Current Projects' and 'Open Submissions'. Each section features a grid of project cards. The 'Current Projects' section includes 'Graphene Mass Production' (with a photo of a hexagonal lattice) and 'Additive Metal Alloy' (with a photo of a curved metal part). The 'Open Submissions' section includes '3D Printing Aviation Components' (with a photo of an aircraft interior) and 'Flexible Display Technology' (with a photo of a flexible display). Each card shows the project title, a brief description, and statistics for views, likes, and comments. A 'SHOW ALL >' link is present at the end of each section.

STARTUP SCREENING & EVALUATION

innosabi Startup

Manage your startup relationships and deals

- | Streamline your startup program in a collaborative startup relationship management tool.
- | Search startups and compile all relevant information for your innovation team.
- | Assign tasks, evaluate startups, and monitor the progress of your startup program in a clear pipeline interface.
- | Create dedicated challenge links and invite startups to join your network proactively.

innosabi empowering what's next

100k+
qualified startups

250+
innovation challenges launched

The screenshot displays the innosabi Startup dashboard. On the left is a navigation sidebar with options: Home, Personal space, Startups, Investment, Applications, Projects, Needs, Experts, Library, FAO, Dashboards, and Admin. The main content area features a 'Welcome on innosabi Startup' banner with a search bar and an illustration of people working. Below the banner are three featured cards: 'Improve our Processes' (with a 'FOLLOW' button), 'Digital Transformation' (with a 'FOLLOW' button), and 'Fintech' (with a 'FOLLOW' button). At the bottom, a 'Latest startups' section lists three startups: NanoThings (Contactless supply chain traceability), AgXeed (Agricultural machines and equipment), and Aledia (Innovative light-emitting diodes).

TECHNOLOGY PORTFOLIO & KNOWLEDGE SHARING

innosabi Tech

Spread internal knowledge and solutions

- | Effectively centralize and manage all internal technological knowledge.
- | Engage employees and let them contribute their expertise in a shared database.
- | Manage your R&D project portfolio, Tech Transfer Process, and technology assets.
- | Monitor your portfolio and measure your KPIs with various statistics dashboards.

Continuous

monitoring and KPIs

Seamless

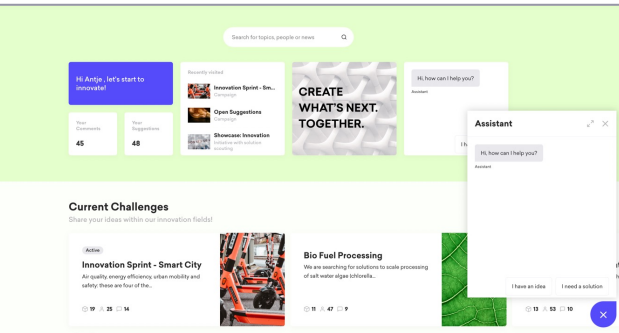

connection between IP, innovation, and knowledge management

The screenshot displays the innosabi Tech platform interface. At the top, there's a search bar and user profile icons. A navigation menu on the left includes Home, Technos portfolio, R&D Projects, IP, Trend notes, Experts, Partners, FAQ, Dashboards, and My space. The main content area features a 'Welcome on your innosabi Tech platform' message with a search input. Below this, there are sections for 'Our selection for you' and 'Technological Fields'. The 'Our selection for you' section includes cards for 'Ground-Based System for Geoloc...', 'Universidade de São Paulo', and 'Alan'. The 'Technological Fields' section includes cards for 'Chemicals', 'Cybersecuté', and 'Electronics & Circuits'. Each card has a 'FOLLOW' button.
